

Data Sheet

Barracuda® 7200.11

Up to 1.5 TB of high-performing, eco-friendly desktop storage—so right for so many different applications

**1.5 TB, 1 TB, 750 GB, 640 GB, 500 GB, 320 GB, 160 GB •
7200 RPM • SATA 3Gb/s with NCQ**

Key Advantages

- Delivers the industry's highest capacity—up to 1.5 TB of storage (also 1 TB and 750, 640, 500, 320 and 160 GB)
- Ships with the industry's most reliable and proven perpendicular magnetic recording (PMR) technology
- Delivers high performance
 - up to 120-MB/s sustained data rate
 - 32-, 16- and 8-MB cache buffer
- Environmentally friendly
 - Consumes up to 43 percent less power during idle than previous products, enabling customers to build low-power systems
 - Meets strict RoHS requirements
- Leverages best combination of technology (areal density, PMR) and proven components for volume availability

Best-Fit Applications

- Workstations
- Desktop RAID
- Gamer PCs
- High-end PCs
- Mainstream PCs
- USB/FireWire/eSATA personal external storage

Barracuda® 7200.11

Up to 1.5 TB of high-performing, eco-friendly desktop storage—so right for so many different applications

Specifications	1.5 TB ¹	1 TB ¹	750 GB ¹	640 GB ¹	500 GB ¹	320 GB ¹	160 GB ¹
Model Number	ST31500341AS	ST31000333AS ST31000340AS	ST3750330AS	ST3640323AS	ST3500320AS	ST3320613AS	ST3160813AS
Interface Options	SATA 3Gb/s NCQ	SATA 3Gb/s NCQ	SATA 3Gb/s NCQ	SATA 3Gb/s NCQ	SATA 3Gb/s NCQ	SATA 3Gb/s NCQ	SATA 3Gb/s NCQ
Performance

¹ One gigabyte, or GB, equals one billion bytes and one terabyte, or TB, equals one trillion bytes when referring to hard drive capacity.
² Sustained Data Rate OD for model number ST31000333AS is 115 MB/s, and for ST31000340AS is 105 MB/s.
³ Not available through distribution

This Barracuda Generation Brings a Whopping 1.5 TB

This is a drive for the ages, and it will take ages to fill it up. In one bold move, Seagate provides the largest single capacity jump in the history of hard drives—a half-terabyte increase from the previous high of 1 TB—thanks to the capacity-boosting power of perpendicular magnetic recording technology.

The Eco-Friendly Choice

The Barracuda 7200.11 drive delivers up to 43 percent power savings over the previous Seagate desktop generation without sacrificing performance, giving customers the ability to manufacture eco-friendly PC systems and external storage systems that meet energy-savings requirements.

Like all other Seagate® drives, the Barracuda 7200.11 product family complies with the Restriction of Hazardous Substance (RoHS) directive that limits the use of hazardous materials in electronic goods.

With the Barracuda 7200.11 drive, our customers can have the best of both worlds—top hard-drive performance and a high-capacity drive with a very small eco-footprint.

Seagate is committed to minimizing the impact of our products and operations on the environment. We have implemented production efficiency measures, such as replacing or renovating less-efficient equipment, resulting in a 20 percent increase in production efficiency on a per-hard-drive basis. In just six months this delivered a savings of 158.93 million kWh, or enough energy to power nearly 15,000 U.S. homes for one year. Seagate also has deployed aggressive waste minimization and recycling programs in facilities worldwide.
